## 激發學生全方位發展

隨著科技的快速發展，STEAM教育在全球範圍內日益受到重視。圓玄三中近年設立的STEAM Team，不僅為學生提供創新科技知識，更激發了他們的爭勝心和全人發展的能力。

圓玄三中的STEAM Team採用校隊式訓練，為隊員提供持續性的專業指導。學校還特設學習小組，以確保隊員在追求發展STEAM興趣的同時，不會忽視學業成績。這種全面考慮的做法，使家長能夠放心支持孩子參與STEAM活動。

此外，STEAM Team的成員也展現出對學習的熱情。即使在參加比賽或外出交流期間，他們也會主動利用空餘時間溫習功課，這樣是源自於他們不願落後於其他同學的心態。而這種自主學習的風氣亦已在學校逐漸形成。

參與STEAM活動，不僅沒有影響學生的學業成績，反而促進了他們的整體進步。同學們皆表示在加入STEAM Team後，他們的成績有了顯著提升。這種進步來自於教師的督促，以及他們在比賽中培養的爭勝心。

STEAM Team為學生提供了一個溫馨的學習環境。學校的STEAM房不僅是訓練基地，在考試期間還會轉變為自修室。許多隊員將STEAM房視為第二個家，在這裡他們找到了歸屬感和奮鬥的動力。學生們經常自願留校到晚上九點，為達成目標而奮鬥。

教師也見證了學生的顯著變化。起初較為被動的學生，通過參與比賽逐漸變得主動積極。他們的溝通能力、自信心都有了明顯提升。特別是經過一年的比賽經驗，學生在個人發展方面取得了巨大進步。

## **Inspires Comprehensive Student Development**

As technology advances rapidly, STEAM education has gained global attention. The STEAM Team at HKTA The Yuen Yuen Institute No.3 Secondary School provides students with innovative technological knowledge while fostering their competitive spirit and holistic development.

The school adopts a team-style training approach, offering the members continuous professional guidance. Special study groups are formed in the team, to ensure team members' academic performance alongside STEAM pursuits, reassuring parents about their children's participation in this activity.

The STEAM Team members demonstrate exceptional learning enthusiasm, utilizing spare time for revision even during competitions or exchanges. This self-directed learning attitude has spread throughout the school.

Participation in STEAM activities has promoted students' overall academic progress, with significant grade improvement. This progress is attributed to teachers' encouragement and the competitive spirit cultivated through competitions.

The school's STEAM room serves as both a training base and a study area, becoming the second home for many students. Team members often stay until 9 PM, working towards their goals in this supportive environment.

Teachers have observed remarkable changes in students, noting increased proactivity, improved communication skills, and enhanced self-confidence. After a year of competition experience, students show significant personal growth.

## 境外考察團

本校學生去年參與的交流團多達二十多個，前往新加坡、南韓、東京、台灣等亞洲彼鄰，亦遠赴歐洲諸國如捷克及英國，開闊眼界，了解各地文化，與世界接軌。

學生亦回歸祖國，走訪大灣區、山東、四川、重慶及北京等地，感受祖國山河的壯麗，見證我國發展的一日千里，體驗中華文化的傳承，例如到四川探索體育、文化和生態的發展；走進齊魯名城感悟齊魯文化的魅力；深入湖南省的張家界和長沙，了解地質與環境保育的工作。學生從旅程中收穫之豐盛，難以用筆墨形容！

TRAVEL

## STUDY TOUR

Last year, our students took part in over 20 exchange programs, traveling to nearby regions like Singapore, South Korea, Tokyo, and Taiwan, as well as to European countries such as the Czech Republic and the United Kingdom. These trips broadened their horizons and deepened their cultural understanding. They also visited the Greater Bay Area, Shandong, Sichuan, Chongqing, and Beijing, where they witnessed China's rapid development and explored its rich heritage. Highlights included learning about sports, culture, and ecology in Sichuan; experiencing Qilu culture in Shandong; and studying geological and environmental conservation in Zhangjiajie and Changsha, Hunan Province. The students gained invaluable experiences that are beyond description.
